

SEARCH & RESCUE DOG ASSOCIATION (WALES)

Lowland Search Dog Training Stages

GUIDELINES:

- 1- Dogs with out a Acceptance test will not be eligible for training on land that has be cleared for Tuesday Nights or weekends, and must remain on a lead at all times
- 2- Acceptance tests may be undertaken by any 2 full mountain and or lowland dog handlers or a suitably Qualified person.
- 3- Stage assessments may be undertaken by any 2 full mountain or lowland dog handlers.
- 4- Handlers must show consistency at the highest Stage of each colour before starting a new colour, if that stage is not reached then the next stage down is assessed and the next, until a stage is reached were consistency is shown.
- 5- Stages in red must be completed in order
- 6- Dogs and handlers will not become eligible for assessment without passing the highest stage of Each colour and hold a current recognised first aid Qualification.
- 7- Novice full and regrade search dog assessment may be undertaken by Any 2 internal and any 1 external assessor.

ACCEPTANCE TEST

OBEDIENCE TEST

Test Situation	Response
1- Dog to walk to heel on and off the lead.	Remains next to heel with the minimum of commands.
2- Dog stay 10 minute, handler to walk up to 25m from dog 5 minutes with handler out of sight of dog.	Dog to remain at stay position until recalled or released.
3- Dog recalled whilst mixing with other dog / handlers.	Dog returns on recall.
4- Dog put into down/stop position away from handler. plus whilst mixing with other dog.	Dog responds to commands, and remains stationary until recalled or released.

STOCK TEST

1- Dog will be recalled through a number of sheep in a controlled area.	Dog returns on recall showing no interest in sheep.
2- Dog will be given a stay command and sheep are herded within 5m of the dog.	Dog to remain at stay position until recalled showing no interest in sheep.

Dogs will fail if they attack or show interest in sheep during the test. It is quite acceptable for dogs to break their stay if subjected to pressure provided they retreat or go to their handler. The assessor must be satisfied that each dog can be controlled in the presence of stock.
